

SMARTER WAYS TO WORK

FINN Additive System™ E-Tack

E-TACK

DESCRIPTION

FINN E-Tack is a specially formulated polymer that electrochemically binds soil and mulch particles together for all HydroSeeding mulch applications. Finn E-Tack can also be used to prevent dust in non-traffic areas and will aid in water penetration in soils low in organic matter. Used for normal to moderate slope conditions.

APPLICATION & RATES

FIBER MULCH TACKING.....6 LBS. PER ACRE

PRODUCT REQUIREMENTS

E-TACK IS NOT A TACKING AGENT FOR STRAW. IT SHOULD BE USED IN A HYDRO-SEEDING APPLICATION WHERE IT COMES IN CONTACT WITH SOIL.
